**We are CALMENT,  
Experiments for us are not  
just business, but a cause.**

## **WHO ARE WE?**

Established in the year 2019, at Ambala (Haryana, India), we “Calment Fine Chemicals” a **Subsidiary of MVTEX Science Industries** are recognized as a well renowned **Manufacturer & Supplier of superior quality range of Lab Reagents & Chemicals.**

## **WHAT WE DO?**

**We manufacture & deal with a Wide Range of Chemicals for Educational, Industrial & Hospital Laboratories. We are also Dealing with Water & Soil Testing Kits used in various Industries. Our products serves the demands of Scholars & Scientists Worldwide.**

## FROM MANAGING DIRECTOR'S DESK

Dear Scholars, Scientists & Trade Partners,

Heartiest Greetings to you.

We present our 2023-24 Catalog with great enthusiasm. Calment has registered very good topline growth last year and it is our promise to our customers and trade partners that this growth will be continue Y-O-Y.

The document you are holding is the result of work performed by the team of professionals of CALMENT.

It is the fruit of our teams extensive experience & collaboration of our customers, who have offered us valuable proposals for improvement. The company is marching ahead by implementing strategies to operate our ever expanding business operations.

Our highly trained workforce, using state of the art technology, is the driving force behind the management of our modern factory, and our principal aim is to guarantee that the CALMENT product range meets the conditions you require.

We thank all our customers and trade partners for their support, trust and loyalty in making brand CALMENT the gold standard and preferred choice in the laboratories.

Yours Sincerely  
Manoj Aggarwal

## WHY US?

With Management consisting of **Engineers and Scientists** having combined experience extending to more than **30 years** & a team dedicated to produce **quality Chemicals with latest technologies**.

We specialize in providing high precision goods at competitive prices. As we are group of different brands, Supplying a wide range of Equipment & Chemicals, our USP is that we can be a single stop solution for you.

## WHO WE CATER TO?

Our team understands the diverse demands of the Researchers around the globe therefore we **manufacture products** which can fulfill the demands of **Educational, Industrial & Hospital Laboratories**.

**At CALMMENT**  
**The Innovation is fueled**  
**by chemicals bonds**

# Quality Assurance

Calment ensures all the products have clearly defined specifications guaranteed by careful and sophisticated quality specifications compliance to the international standard requirements.

Our QC and R & D departments are equipped with highly modern and sophisticated facilities to attain precise results.

We at Calment feel that Quality is the most important aspect without any substitute. In addition to that we are constantly monitoring our sales and customer care services to build closer relation with our customers.

Our team of engineers ensures that the Quality and Purity Of each Product is as per specifications by conducting series of test at different Stages. Environmental & safety concerns are also taken into Account.

We offer a wide range of product under one roof. We Employ a variety of modern techniques for the development of new products.

# Purity Of Grades

## DIAGNOSTIC REAGENTS

These are specially produced for the use in various hospitals, clinical & pathological laboratories for diagnostic purpose.

## DRY SOLVENTS

These solvents are processed & distilled with drying agents to obtain minimum possible moisture content and are most suitable for Moisture Sensitive Reactions.

## FOR MICROBIOLOGY

Products which have been specially purified and tested for their microbiological applications.

## FOR MICROSCOPY

microscopy stains are standardised by UV spectrum and controlled by TLC. They correspond normally to the specifications given in H.J. Conn's Biological Stain (1977).

## FOR SYNTHESIS (LR & EP)

General purpose reagents used in many potential applications in chemical laboratories, careful control ensures that a consistently high defined quality is maintained throughout.

# CERTIFICATIONS

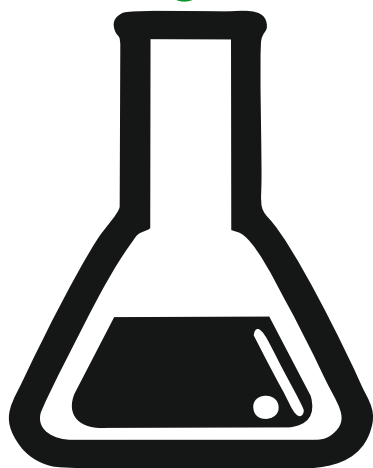

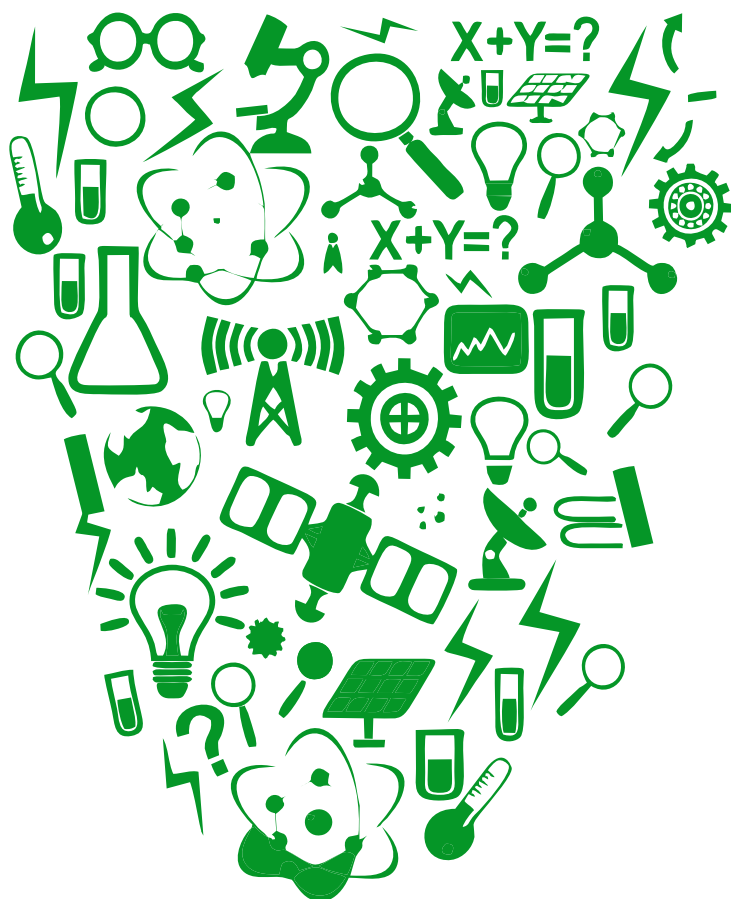

To achieve our goals, we have instituted a quality management system conforming to ISO 9001:2015, ISO 13485:2016 & CE Certification for our range of products.

We at Calment Fine Chemicals shall always strive to provide the best quality Laboratory & Chemicals and Reagents required for teaching, research, analysis for better quality of life.

# OUR VALUES

## WE ENDEAVOUR

To be the scientist's supplier of choice by delivering the highest quality products and services supported with a fast, approach.

## TOMORROW'S SCIENCE

Depends on what we do today. We aim to contribute to a healthier, smarter and safer world by supporting science and the people who work within it.

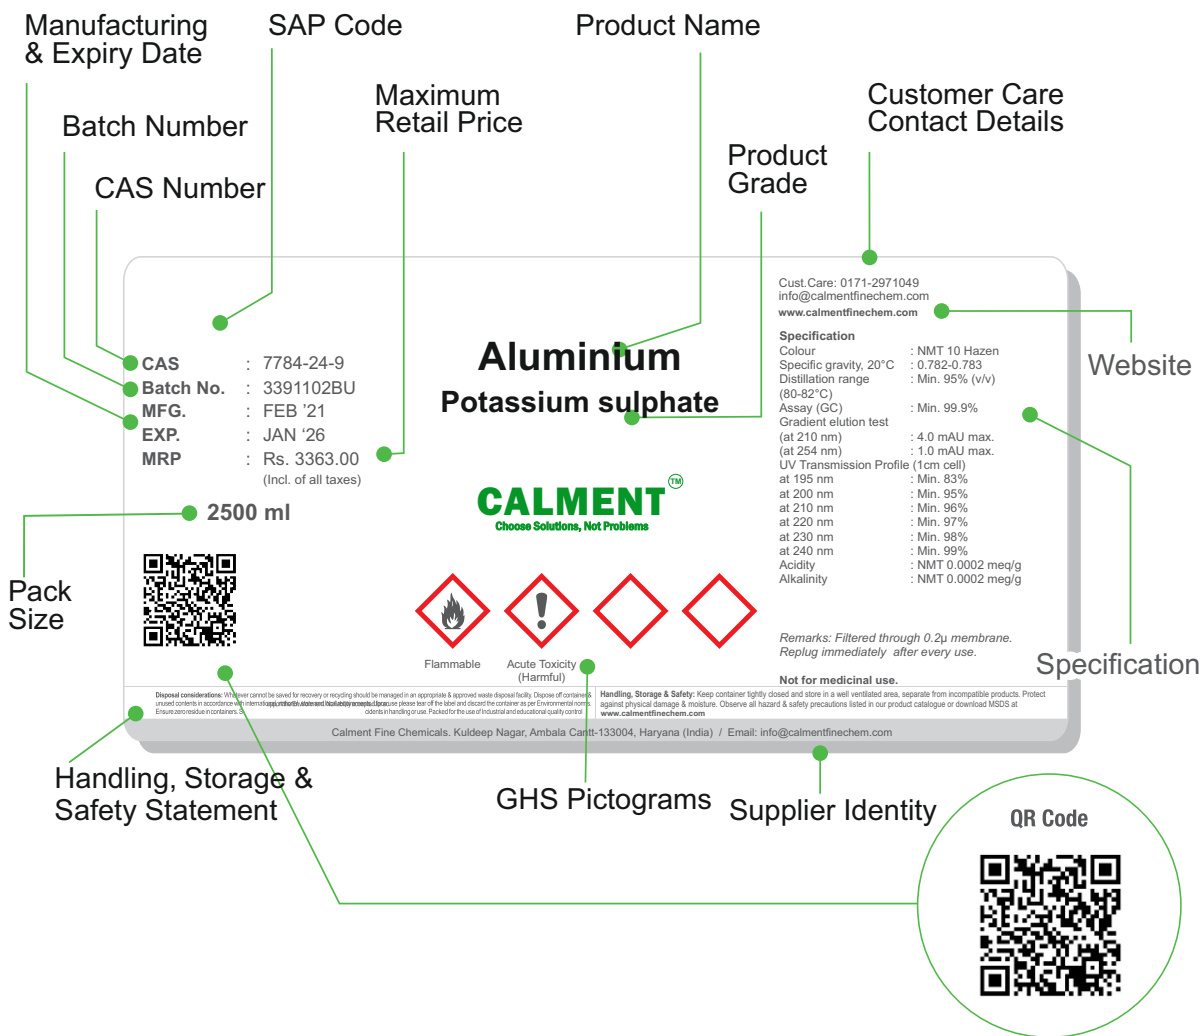

## ACCOUNTABILITY

Corporate Citizenship, Honesty & Integrity  
Scientific Expertise  
Diversity Teamwork, Precise Engineering & Longer Function Life

# Label Explanation

The newly designed labels are visually appealing, offer comprehensive product details, and a special emphasis is on handling, storage and safety information along with the hazard pictograms adhering to GHS Compliance.

All Product Labels come affixed with a unique QR code. Users can easily scan the QR code through their handheld device such as a smart-phone or a tablet and instantly obtain the Product COA of that particular batch. All you need is a QR code scanner/reader installed in your device which may be downloaded from the Google Play Store for android devices or Apple Store for IOS devices.

# Globally Harmonised System

## GHS Pictograms and Hazards

The GHS is an acronym for The Globally Harmonized System of Classification and Labeling of Chemicals. The GHS is a system for standardizing and harmonizing the classification and labeling of chemicals. It is a logical and comprehensive approach to:

- Defining health, physical and environmental hazards of chemicals
- Creating classification processes that use available data on chemicals for comparison with the defined hazard criteria
- Communicating hazard information, as well as protective measures, on labels and Material Safety Data Sheets (MSDS)

The hazard communication is made through GHS Pictograms depicted below that indicate the potential hazard of the product.

### Health Hazard

- Carcinogen
- Mutagenicity
- Reproductive Toxicity
- Respiratory Sensitizer
- Target Organ Toxicity
- Aspiration Toxicity

### Flame

- Flammables
- Pyrophorics
- Self-Heating
- Emits Flammable Gas
- Self-Reactives
- Organic Peroxides

### Exclamation Mark

- Irritant (skin and eye)
- Skin Sensitizer
- Acute Toxicity (harmful)
- Narcotic Effects
- Respiratory Tract Irritant
- Hazardous to Ozone Layer (Non Mandatory)

### Gases Under Pressure

- Compressed Gas
- Liquefied Gas
- Dissolved Gas
- Refrigerated Liquefied Gas

### Corrosion

- Skin Corrosion / burns
- Eye Damage
- Corrosive to Metals

### Exploding Bomb

- Explosives
- Self-Reactives
- Organic Peroxides

### Flame Over Circle

- Oxidizers

### Environment (Non-Mandatory)

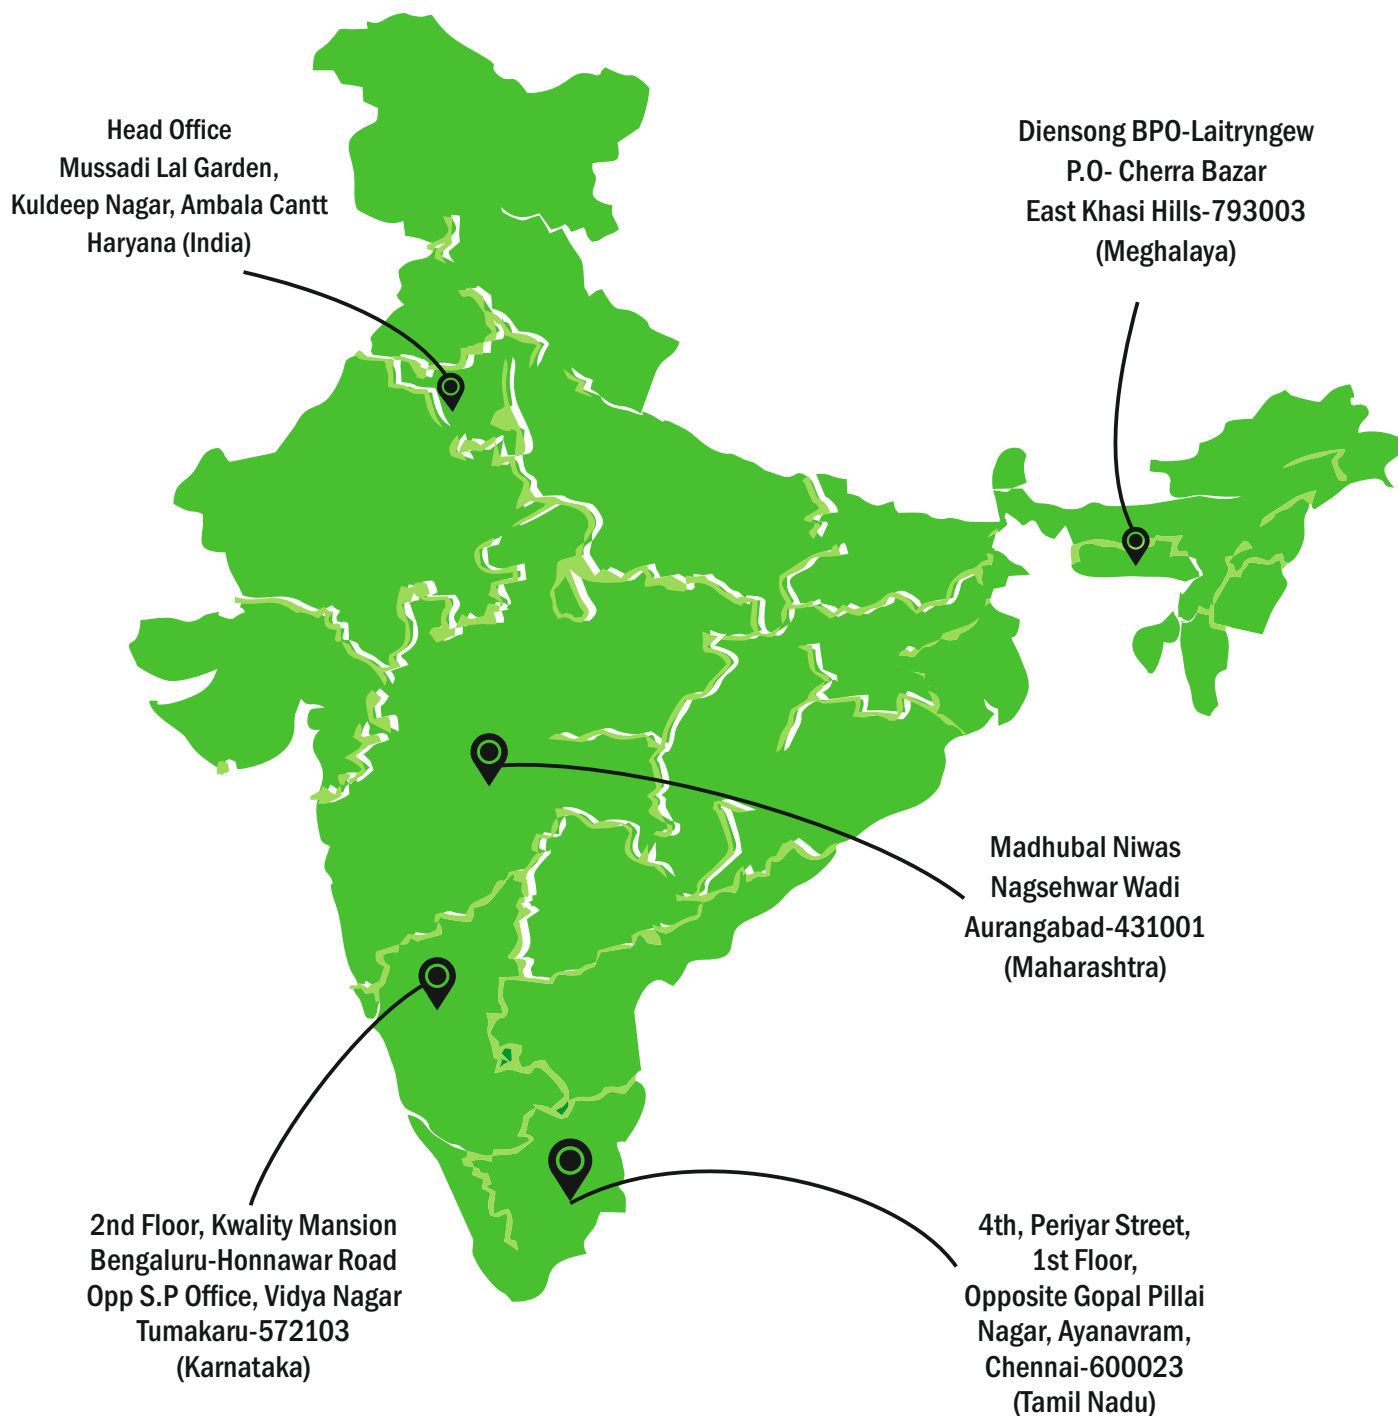

- Aquatic Toxicity

### Skull & Crossbones

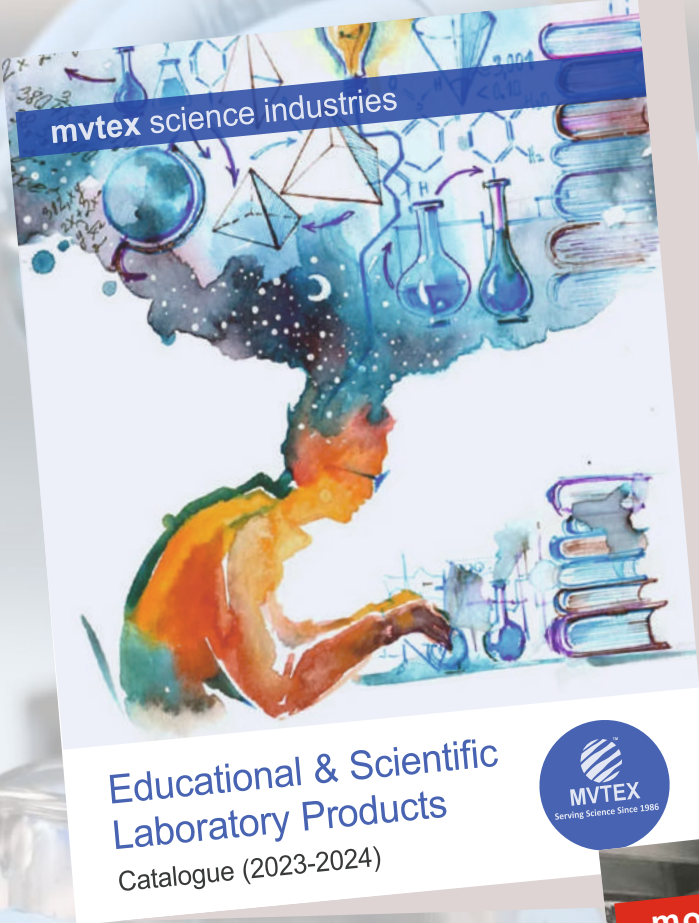

- Acute Toxicity (Fatal or Toxic)

# Terms and Conditions

## Price

The prices set out in this Price List are the maximum price w.e.f. 1st April, 2023 and it is open to all parties to sell the products at prices lower than the prices set out.

The prices quoted here are applicable at the time of printing and are subject to alteration without notice. Goods shall be invoiced at prices ruling on the date of dispatch.

## Taxes and Duties

The prices quoted are exclusive of Goods and Service Tax (GST), Cess / Levies / Taxes of Central or State Government which will be charged extra as applicable at the time of dispatch of goods.

## Bulk Requirements

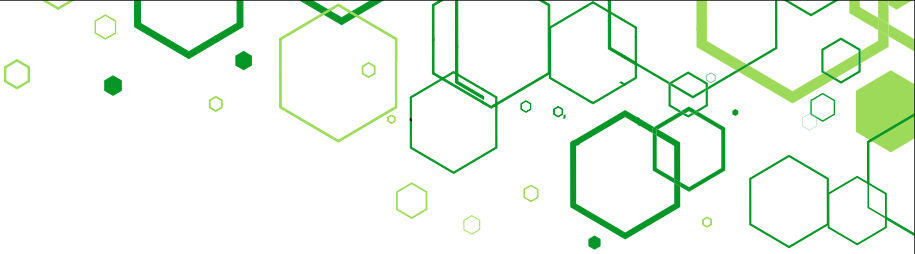

Bulk packs of products will be considered at special prices for specific needs of actual user. The delivery period in such cases will be at least 2-3 weeks.

## Customers

All products listed in this price list are sold to stockists, who in turn effect supplies to dealers and/or consumers. However, the Company in its discretion may accept orders from customers, provided the value of such order is over Rs. 25,000/- In the case of direct orders received by the company, the following additional terms will be applicable.

## Delivery

- While every effort will be made to adhere to delivery dates, no responsibility is and will be accepted for non-delivery or for delayed delivery.
- Items offered are subject to the goods being in Stock on the date of receipt of order.

- 
- Road Permit wherever applicable should accompany the order, failing which the order will not be executed till such time the same is received.
  - For mineral acids the quantity ordered of the 500 ml pack should be in multiples of 8 and that of 2.5 liters pack in multiples of 4. For Hydrogen peroxide the quantity ordered should be in multiples of 20x500ml.
  - Sales of certain products is prohibited in some states. Requisite storage license and permit details should be sent along with the order for processing.

## Insurance

- All goods are packed with utmost care and are forwarded at customer's risk.
- No responsibility is taken for breakages or loss in transits. Such claims should be sent to carriers without delay.
- Goods can be insured at the customer's request @ 2% of the invoice value. Charges for insurance are and will be made on the invoice itself
